Internship

Serverless Application Developer Intern

June 2024 - July 2024

Gokboru Tech

- Developed a serverless e-book reader leveraging AWS S3, Lambda, and API Gateway to create a scalable and efficient solution.
- Designed and implemented backend logic to fetch and process e-books dynamically from S3 using Lambda functions.
- Configured API Gateway to expose RESTful endpoints and integrated them with a static frontend hosted on S3.
- Ensured secure access by implementing IAM roles and policies, and optimized cross-origin access with CORS configurations.

Projects

BookNest – Online Ebook platform

July 2024

- Developed a serverless e-book reader platform utilizing modern cloud-based and web development technologies.
- The front-end was designed using HTML, CSS, JavaScript, and Bootstrap for a responsive and user-friendly interface.
- Lambda for backend logic, and API Gateway for managing RESTful APIs
- Tech: HTML, CSS, JavaScript, Bootstrap, AWS S3, AWS Lambda, AWS API

Ticket4You - Indian Railways Ticket Booking Website

March 2023

- Designed and developed a responsive ticket booking platform for Indian Railways using HTML, CSS, JavaScript, and Bootstrap.
- Implemented an intuitive user interface for searching, selecting, and booking train tickets.
- Enhanced user experience with dynamic form validation and seamless navigation.
- Focused on clean design and mobile responsiveness to ensure accessibility across devices.

Certifications
